

**Save Money**

**Save Energy**

**Save the World**

**Did you know that we can help you save money on your bills so you can save more for the future?**

Newlon Fusion is proud to offer Newlon residents the chance to save money and the environment starting this summer!

In partnership with local credit unions and environmental charities we have put together three different programmes that you can get involved in and will save you money.

If you want to put some extra pounds in your pocket for very little effort read on to find out more.

# Save in your pocket – help the environment

If you take part in the project below we can help you save up to £170 a year on your energy bills.

## Global Action Plan

**For Newlon residents in Hackney and Tower Hamlets:**

We need 30 households to take part in a new pilot project which will help you become more energy efficient and will save you money year on year.

Environmental charity, Global Action Plan, will visit your home and assess how much energy you use and why. They will help you make a plan for your home with simple and easy ways to reduce the amount of energy you use. For example, they might tell you to switch appliances like your TV or kettle off at the wall, which will save you money as well as reducing carbon dioxide emissions.

If you take part you will receive support from an **energy expert** who will be able to guide you through your plan. You will also be invited to meetings with other participating households so you can share your experiences and give each other advice. At these meetings you will also receive free energy efficient devices, such as light bulbs and smart meters.

The whole process will last around 6 months and by the end of the project you could notice savings of up to £170 per year on your energy bills!

We hope that these projects will get you more involved with Newlon so that we get to know you better and also to help save you money – something we could all use a little extra of!

With the money you save by reducing your energy usage why not open a savings or credit union account? Even if you don't want to take part in any of the environmental programmes, these financial incentives are sure to get you interested.

## Open a savings account and we will give you money!

### For Newlon residents in Tower Hamlets:

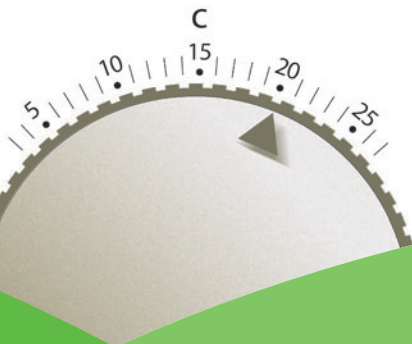

If you open a savings account with Tower Hamlets Community Credit Union and save no less than £5.00 per month for at least ten consecutive months, we will put £50.00 into your credit union account. Where a young Newlon saver has had a Young Savers Account with the credit union for over a year, Newlon will credit that account with £10.00.

## Fair Finance

### For all Newlon residents:

Fair Finance is a local not for profit organisation who are offering Newlon residents debt counselling, money advice, help opening bank accounts and affordable loans. Fair Finance are also offering workshops to Newlon Residents on how to manage finances. They have offices in Stepney, Dalston, Redbridge and Islington. Give them a call on **020 7780 1777**.

If you are interested in any of these schemes or just want to find out more, please contact **Ketra Najjingo** on **020 7033 4572**. If you are feeling a bit shy, why not get your neighbours to take part with you?
