

Save Money

Save Energy

Save the World

Did you know that we can help you save money on your bills so you can save more for the future?

Newlon Fusion is proud to offer Newlon residents the chance to save money and the environment starting this summer!

In partnership with local credit unions and environmental charities we have put together three different programmes that you can get involved in and will save you money.

If you want to put some extra pounds in your pocket for very little effort read on to find out more.

Save in your pocket – help the environment

Energy Doctor in the home

For Newlon residents in Islington:

Newlon Fusion is working with Groundwork North London to help you save money on your gas and electricity bills. An Energy Doctor can make a one off visit to your home to give you energy saving ideas that focus on heating, lighting, waste and water use, which will save you money.

If you are interested in any of these schemes or just want to find out more, please contact **Ketra Najjingo** on **020 7033 4572**. If you are feeling a bit shy, why not get your neighbours to take part with you?

We hope that these projects will get you more involved with Newlon so that we get to know you better and also to help save you money – something we could all use a little extra of!

With the money you save by reducing your energy usage why not open a savings or credit union account? Even if you don't want to take part in any of the environmental programmes, these financial incentives are sure to get you interested.

Open a savings account and we will give you money!

For Newlon residents in Islington:

If you open up a savings account with Islington and City Credit Union and you save no less than £5.00 per week, or at least £20.00 per month for three consecutive months, Newlon will give you £60.00, which will be credited to your credit union account.

If you have children and they open up a Young Savers Account, we will give them £10.00 for their account as long as they save no less than £2.50 per week or £10.00 per month for three consecutive months.

Fair Finance

For all Newlon residents:

Fair Finance is a local not for profit organisation who are offering Newlon residents debt counselling, money advice, help opening bank accounts and affordable loans. Fair Finance are also offering workshops to Newlon Residents on how to manage finances. They have offices in Stepney, Dalston, Redbridge and Islington. Give them a call on **020 7780 1777**.
